Personal Details

- Date of Birth : 12/1/1999
- Nationality : 12/MaYaKa (C) 189536
- Marital Status : Single
- Gender : Male

Skills

Leadership and Project Management	80%
Cloud Servers & Services Configuration (AWS, Digital Ocean)	100%
Docker, Kubernetes, Git, CI/CD	60%
Microservices Architecture	60%
TypeScript knowledge	80%
Advance Database Knowledge on MySQL, SQL	80%
Data confidentiality, Data collection and analysis	60%
Technology Architecture Analysis	80%
Content Delivery Network and Storage Set-up from Akamai CDN	80%
Advance Monitoring Tools (Zabbix, Grafena, eG-Enovation, Kibana)	60%
Business analysis, Strategic planning and review	60%
Information Security & Cyber Security	80%
Product development	60%

Language

Objective

Knowledgeable Leadership and Cloud Base technical systems professional offers problem-solving skills and best practices expertise. Thorough with assessments, solution development and deployments. Accomplished in partnering cross-functionally to enhance systems for changing demands.

Experience

- **AYA Bank**   Current-Working

  DevOps Engineer

  ✓ Designed and implemented web application updates and upgrades, monitoring performance to eliminate errors.

  ✓ Used Docker and Kubernetes to manage, scale and update containers for improved automation possibilities.

  ✓ Identified and implemented streamlining and automation opportunities, improving department efficiency.

  ✓ Created, configured and managed robust, high-performing Amazon Web Services platforms.

  ✓ Developed innovative, immersive technology through effective collaboration with design and engineering teams.

  ✓ Used CI and CD automation testing to effectively assess application function and user experiences.

  ✓ Handled configuration management using best-suited software tools, including Terraform, CloudFormation and Ansible.

  ✓ Built effective pipelines and enhanced production infrastructure through targeted database and cluster management.

- Advanced English

- **ABC Content Solutions**   **Dec/2019-May/2022**
  Senior Systems Administrator
  ✓ Managing cloud server (Digital Ocean, AWS).
  ✓ Communicate and manage third party vendors .
  ✓ Install, configure and maintain Server, Database, Computer Hardware and Office Network.
  ✓ Configuration and Maintenance Content Delivered Network (Beluga CDN, Akamai CDN).
  ✓ Designing the Cloud Base Infrastructure that is secure, scalable, and highly available.
  ✓ Build and maintain operational tools for deployment, monitoring, and analysis of Cloud Base Infrastructure.
  ✓ Managed system cybersecurity, implementing firewall, anti-virus software, and VPN for fewer cyber attacks.
  ✓ Developed and tested installation of company-wide servers.
  ✓ Fostered high availability of infrastructure through strategic planning, testing and manage.
  ✓ Project management (CDN, CRM for Customer service), and Cloud Infra Migration (Digital ocean to AWS).
  ✓ Docker container build image, Docker Network, running services on docker container, And also Container build with Docker composer (.yml file)

- **KBZ Bank**   **Sep/2019-Nov/2019**
  NOC Engineer
  ✓ Provided hands-on troubleshooting, routing and switching to resolve issues with 80 % efficiency.
  ✓ Monitored network services metrics and produced reports every days for comprehensive overview of performance.
  ✓ Delivered detailed design diagrams, complete technical documentation and change scripts using various tools.

- **ITSec Institute Learning Center**   Jan/2019-Sep/2019
  Operations Consultant
  ✓ Trained and mentored 4 Consultants to increase team productivity.
  ✓ Handled complex problems and issues by understanding root causes and implementing solutions.
  ✓ Directed and coordinated work completed by junior consultants and other consultants.
  ✓ Promoted continuous business improvement based on knowledge gained from from client implementation, previous experiences and ideas.
  ✓ Helped clients enhance internal structures and improve handling of current and potential problems.
  ✓ Drove organisational improvements in customer satisfaction scores and key metrics impacting revenue and profitability.
  ✓ Created proposals incorporating proposed changes, revisions and redefinitions to improve organisational function.
  ✓ Managed, coordinated and delivered projects to meet agreed timeframes and budget constraints.
  ✓ Supported teams during implementations and produced clear instructions outlining changes.
  ✓ Facilitated resourceful decision-making to tackle organisational problems.

Education

- **University Of Wolverhampton**   2018
  Computing and System Development (QCF)
  BTEC Lvl-5 HND Diploma

- **NCFE**   2020
  Diploma in Cyber Security and Ethical Hacking
  85% Score

- **International Cybersecurity Institute ICSI UK**   2020
  Certified Network Security Specialist
  Certified

- **Charles Sturt University Australia**   2020
  Enterprise Cyber Security Fundamentals
  Certified

- **Global RedHat Community**   2019
  RedHat Certified System Administrator
  Certified

Projects

- **Cloud Infrastructure Migration**
  ✓ Draw Infra Diagram for Old platform, It's on Digital Ocean and then our new Infra want to setting up to AWS.
  ✓ Planning for all of services, servers and some of server scale up/down, backup on aws.
  ✓ Manage the Migration Project to Nex-4 Vendor team.
  ✓ Report to CIO

- **Content Delivery Network CDN Migration**
  - ✓ Planning old CDN side from Bluega CDN to Akamai CDN.
  - ✓ Designing the movie platform streaming services.
  - ✓ Managing and Negotiate with Akamai CDN team related about Technical.
  - ✓ Report to CIO

- **Streaming Free subscribe On operator**
  - ✓ Set-up and configuration on Akamai CDN side.
  - ✓ Managing and Negotiate with Akamai CDN team related about Technical.
  - ✓ Technical Project Management with vendors and internal development team.
  - ✓ Report to CIO

- **Business Strategy and Planning for Learning Center**
  - ✓ Trained and mentored 4 Consultants to increase team productivity.
  - ✓ Handled complex problems and issues by understanding root causes and implementing solutions.
  - ✓ Directed and coordinated work completed by junior consultants and other consultants.
  - Promoted continuous business improvement based on knowledge gained from from client implementation, previous experiences and ideas.
  - ✓ Helped clients enhance internal structures and improve handling of current and potential problems.
  - ✓ Drove organisational improvements in customer satisfaction scores and key metrics impacting revenue and profitability.
  - ✓ Created proposals incorporating proposed changes, revisions and redefinitions to improve organisational function.
  - ✓ Managed, coordinated and delivered projects to meet agreed timeframes and budget constraints.
  - ✓ Supported teams during implementations and produced clear instructions outlining changes.
  - ✓ Facilitated resourceful decision-making to tackle organisational problems.

- **Monitoring Services**
  - ✓ Set-up and configuration zabbix server.
  - ✓ Maintainance and project manage for this project.
  - ✓ Manage to the internal systems team.
  - ✓ Report to CTO

- **Data Analysis Server for Business Required**
  - ✓ Set-up and configuration Zoho analysis server.
  - ✓ Planning for Database connect flow and SQL Query.
  - ✓ Daily and Weekly Schedule planing.
  - ✓ Training for using this service to the team.
  - ✓ Report to CIO
